

SE-00010498

Goals

To strengthen children's thinking to analyse, read and organise data in the world.

Challenge of Practice

If we employ strategic questioning around data experiences then we will strengthen children's thinking to analyse, read and organise data in their world.

Success Criteria

Pedagogical documentation will capture children's individual growth in thinking about mathematical language of data and how it evolves over the year.

National Quality Framework Priorities

Inquiry into how our pedagogical documentation reflects the EYLF2 planning cycle

Key steps

Unpack the EYLF2 planning cycle, in particular "assess" and "evaluate"
In Professional Learning Communities critically reflect on current practice with the planning cycle

Subcommittee formed and discussions with Linden Park Primary school to discuss logistics and plans for mid year entry children re orientation and transition

Inquiry into mid year intake – transition to school and school orientation School investigations, What's working well and what could be better

Timeline established for both school and kindergarten
